

1988-89 ECHL Card Set for Hockey Blast Information Booklet

(Updated March 2020)

Introduction

The East Coast Hockey League, known today just as the ECHL, was formed in 1988, combining the three surviving teams from the All-American Hockey League (Carolina Thunderbirds, Johnstown Chiefs, and Virginia Lancers) with two new franchises (Erie Panthers and Knoxville Cherokees). The teams played a 60-game regular season, with Erie finishing first (77 pts), followed by Johnstown (70 pts), Knoxville (65 pts), Carolina (55 pts), and Virginia (52 pts). Daryl Harpe (Erie) was the league MVP with 38 goals and 84 assists in 60 games played. Scott Gordon (Johnstown) was the top goaltender with a 3.82 GAA.

In the playoff semifinals, Carolina swept Erie 4-0 in a huge upset, while Johnstown swept Knoxville 4-0. In the Riley Cup Final, Carolina defeated Johnstown 4 games to 3, winning two games on the road.

The Cards

To start, I selected the 20 most representative skaters and 2 goalies per team and made cards for them. Then, I looked at the remaining players and made cards for those who played at least 10 games. (For this update, I added four players who were previously uncarded, but played in the playoffs for their respective teams.) The cards are based on limited data retrieved from the ECHL Stats Archive (<https://www.echl.com/echl-stats-archive>) and the Internet Hockey Database (www.hockeydb.com). Players who suited up for multiple teams are grouped with the team they finished the season with. These players are listed later in this document.

Recommended Rule Modifications

Lineups

In the 1988-89 season, ECHL teams dressed 14 skaters and 2 goaltenders per game. The usual rotation was three forward lines and two defense pairs, with the extra skater rotating in depending on the position(s) he played).

Fights

In the early years, the ECHL was known as a “rough and tumble” league before evolving into the developmental league that it is today. Thirty-seven skaters racked up more than 100 penalty minutes in the 1988-89 season, with four of them topping 300 minutes! (Keep in mind, this was a 60-game season.) Therefore, when you get a possible fight result, don’t worry about rolling for the fight rating. If there’s one skater on each team with a fight rating, just let them go at it!

Several goalies have fight ratings on their cards. I didn’t have fight stats, so I assigned them based on PIM. Ignore all goalie fight ratings unless you get a melee or bench-clearing brawl on the Behavior Results chart.

Overtime/Shootout

In the 1988-89 ECHL season, if regulation ended in a tie, teams played 5-on-5 for five minutes or until someone scored, so just use the regular charts and rules. If still tied after the OT, the teams went to a shootout.

The shootout lasted five rounds for each team, then went to sudden death if there was still a tie. The visiting team always went first. Other than those two changes, follow the regular shootout rules listed in the Hockey Blast rulebook.

Multiple-Team Players

For those wishing to play an accurate season replay, the following players dressed for multiple teams during the 1988-89 ECHL season, with the number of games they played for each team. I’m not aware of any transaction date list that is available.

Instant Results Chart

For those wishing to replay a full season, I have included an Instant Result Chart for games you don't want to play out. This chart is based on the actual head-to-head and home-road records of the teams. To get an instant result, roll the two dice and read them separately, black die first.

I welcome any questions or feedback you have about this set. You may contact me via e-mail at djones90@yahoo.com. Enjoy the set!
