1 Mission Hills CC
Rancho Mirage, CA

CHALLENGING ●

The course opener requires a tee shot down the middle. The three bunkers surrounding the green are the main challenge to this hole. The elongated green hosts some tough pin-placements, so the approach shot must be accurate.

Rancho Mirage, CA

CORDIAL FRIENDLY ●

One of the longest holes on the course, this slight dogleg-left is bordered by traps down both sides of the fairway. Despite the downward slope which makes it hard to hold the green, this is one of the few true birdie holes.

Rancho Mirage, CA

CHALLENGING ●

Hole 3's uphill fairway makes it play longer than it is. The narrow landing area off the tee requires a long, straight shot. Often one of the toughest holes on the course, the large green is made more daunting by difficult pin placement.

FRIENDLY

The slight dogleg-right demands an accurate drive. The uphill approach shot to the green is deceiving, and leaves many players scrambling to save par. The three bunkers guarding the green add to Hole 4's difficulty.

FRIENDLY ●

The fifth hole requires a precise iron shot over the water to the two-tiered green. With a rear pin placement, plenty of spin is needed to hold the ball on the top tier.

6 Mission Hills CC
Rancho Mirage, CA

Hole 6 is a severe dogleg-left. Players who choose to go for it have to carry water and trees. A safer tee shot is to an area on the right. The well-trapped green slopes from back to front, causing most players to try to keep the ball below the hole.

7

Mission Hills CC

Prevailing winds often come into play on this sharp dogleg-left. The ideal tee shot lands to the left-center of the fairway. This is the only way to take the trap and mound on the right and trees on the left out of the approach shot.

This wide fairway allows players to be aggressive off the tee. Fairway bunkers line both sides, but players favor the right. This leaves a clean approach to the deepest green on the course.

One of the more difficult holes on the course, 13 begins a four-hole stretch that separates the champion from the rest of the field. The large, tiered green is notorious for not holding approach shots.

Even though this is the shortest hole on the course, it requires accuracy and good timing due to shifting winds, bunkers and water. The tee is elevated and the fairway slopes downward, making club selection crucial.

No. 15 has the reputation for being the toughest driving hole on the course. Bunkers on the left at mid-point and trees on both sides of the fairway leave little room for stray tee shots. The green is elevated and well-guarded by deep bunkers.

Consistently ranked as one of the most difficult holes on the course, staying out of the trees on the right is crucial. The green is hard to read with its many subtle contours. Most players are glad to take par on this hole.
